**The Commission's policy is to schedule hearings (meetings, workshops, etc.) in locations that are accessible to people with disabilities.**

The CPUC encourages all Californians to participate in its meetings, hearings, workshops, and proceedings. We try to hold our public meetings only in places that are wheelchair accessible and which can accommodate specialized equipment and other services useful to people with disabilities. Please see the notice of the meeting you wish to attend for more specifics.

If you plan to attend and need specialized accommodations for a particular meeting that are not listed in the notice, request them from the Public Advisor's Office at least three business days in advance of the meeting. Contact the Public Advisor's Office by any one of the following:

7/19/06                    **R06-02-013** - Order Instituting Rulemaking to integrate procurement policies and consider long-term procurement plans.

**Summary:** On July 14, 2006, Eric Jacobson, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Stephen St. Marie, advisor to Cmmr. Bohn, in San Francisco. Written material (attached to the notice) was used. Jacobson stated that ALJ Brown's proposed decision (PD) regarding cost allocation for new generation resources is an important step towards ensuring the development of new generation resources in California. Jacobson explained that while PG&E strongly supports the PD, it should be modified in three respects: first, to clearly indicate that the cost allocation mechanism is durable; second, PD should be clarified to ensure that utilities have a choice on whether or not to recover new generation costs through the adopted cost allocation mechanism or through the non-bypassable charge. Jacobson indicated that choice was important to PG&E. Jacobson explained that, third, the PD should apply to all new generation resources.

7/20/06                    **A05-06-028** – Pacific Gas and Electric Company, for authority to increase revenue requirements to recover the costs to deploy an advanced metering infrastructure.

**Summary:** On July 16, 2006, Brian Cherry, Vice President, Regulatory Relations, Pacific Gas and Electric Company (PG&E), had two separate telephone conversations - with Andrew Campbell, advisor to Cmmr. Chong, and Stephen St. Marie, advisor to Cmmr. Bohn. Cherry stated that the proposed decision properly found that PG&E's AMI technology meets all Commission functionality requirements. In addition, Cherry stated that the record supports PG&E's selection of electro-mechanical meters over solid state meters for residential customers.

7/20/06                    **A04-12-004** – San Diego Gas & Electric Company and Southern California Gas Company, for authority to integrate their Gas Transmission Rates, establish firm access rights, and provide Off-System Gas Transportation Services.

**Summary:** On July 18, 2006, Sandi McCubbin, lobbyist for Reliant Energy (Reliant), met with Cmmr. Chong in San Francisco. Also present were Lynn Carew and Andrew Campbell, advisors to Cmmr. Chong, and Michael Day, counsel for Reliant. The Reliant representatives discussed potential impacts of Southern California Gas Company on market participants, including end use customers such as Reliant. Reliant representatives stated that there is a significant concern that the introduction of reservation charges and commitments to receipt points within specific zones could increase costs and limit the options of generators who must respond to volatile electric demand on an hourly basis. Reliant representatives indicated that electric generation customers are concerned that a complex set of receipt point rights, transmission zones, and distinctions between expansion and displacement capacity could discourage potential gas suppliers from serving the market. Day also indicated that the peaking rate has a similar impact in discouraging customers

from accessing new supplies through interstate pipelines.

**R06-03-004** - Order Instituting Rulemaking Regarding Policies, Procedures and Rules for the California Solar Initiative, the Self-Generation Incentive Program and Other Distributed Generation Issues.

**Summary:** On July 18, 2006, Kari Smith, Senior Manager, Regulatory Affairs, PowerLight Corporation (PowerLight), member of the PV Now coalition (PV Now), met with Pres. Peevey in San Francisco. Also present were Nancy Ryan, advisor to Pres. Peevey, Julie Fitch, Director of the Division of Strategic Planning, Jean Clinton, Advisor for Clean Energy Initiatives, Greg Rosen, Senior Manager, Customer Finance, PowerLight, and Andrew Beebe, President, Energy Innovations, member of the PV Now coalition. Written materials (attached to the notice) were used. PV Now representatives discussed the implementation of the California Solar Initiative and the importance of establishing appropriate market signals to solar customers. PV Now representatives noted the influence of global market conditions on installed PV system costs, including rising cost of steel, copper, silicon and PV cells. The PV Now representatives expressed concern that the Commission staff's proposed decrease in commercial customer capacity-based rebates and performance-based equivalents in 2007 are too pronounced to sustain uninterrupted customer investment in PV. PV Now representatives also discussed the importance of the non-residential market.
